MAURO PEREIRA JR

Artist

👤 Artist Statement

I am a Brazilian/Canadian oil painter specializing in palette knife techniques to explore memory, emotion, and human experience through textured, impressionistic abstraction. My work captures the essence of fleeting moments, using movement and color to create a dialogue between the painting and the viewer. Exclusively working with oil on canvas, I invite viewers to see their own stories reflected in the layers of each piece. Currently, I am expanding my practice into portraiture, deepening the emotional and narrative richness of my work.
